PROFESSIONAL SUMMARY

Java Full-Stack Developer specializing in building scalable RESTful web services using Spring Boot, Hibernate/JPA, and MySQL. Experienced in designing secure REST APIs, layered architecture, and integrating React frontend applications.

TECHNICAL SKILLS

Languages: Java, C, JavaScript, SQL, HTML, CSS
Frameworks & Libraries: Spring Boot, Spring MVC, Hibernate/JPA, React JS, JDBC, Servlets, Tailwind
API: RESTful APIs, CRUD APIs, JSON, HTTP Methods, Validation, Exception Handling
Architecture: RESTful Architecture, MVC Architecture
Databases: MySQL, Oracle
Data Structures & Algorithms: Arrays, Strings, Linked Lists, Trees, Graphs, Sorting & Searching
Tools & Platforms: Git, GitHub, Postman, Apache Tomcat, Eclipse, STS, VS Code

---

PROJECTS

E-Commerce Web Application | Spring Boot, REST APIs, MySQL, React **(Ongoing)**

- Developed 20+ REST APIs for user, product, cart, and order management
- Implemented GET, POST, PUT, DELETE following REST principles
- Integrated backend APIs with React frontend
- Applied validation, global exception handling, and transaction management
- Designed normalized schema with 10+ relational tables

CRUD Web Application (Servlet-Based) | Java Servlets, JDBC, MySQL
GitHub: https://github.com/Nikhil-java-dev/jdbc-servlet-crud-project

- Developed REST-style CRUD endpoints using Servlets
- Implemented database connectivity using JDBC
- Followed MVC architecture for clean separation of layers
- Deployed and tested application on Apache Tomcat server

PROFESSIONAL EXPERIENCE

Java Developer Trainee – QSpiders, Noida | Aug 2025 – Present

- Built and consumed REST APIs using Spring Boot
- Implemented Controller-Service-Repository layered architecture
- Developed secure endpoints with validation and exception handling
- Solved 100+ Data Structures & Algorithms problems

EDUCATION

MCA – School of Management Sciences, Varanasi (2023–2025) | CGPA: 8.6/10
B.Sc. Mathematics – Mahatma Gandhi Kashi Vidyapith, Varanasi

KEY STRENGTHS

- Strong foundation in OOP and Data Structures & Algorithms
- Growing expertise in RESTful API design, backend architecture, and Exception Handling
- Quick learner with strong debugging and problem-solving skills

---
